

The CLP Lambert Fellows Program is designed to provide multi-year funding for hands-on lab research for rising sophomores and juniors majoring in Chemistry under the mentorship of CLP faculty members. The overall goal of the program is to create a cohort of enthusiastic, well-trained undergraduates who will be entrepreneurial in their approach to research. Fellowships will begin this summer and continue throughout the academic year for a period of two years.

## Award

- Each Fellowship award amounts to **\$9,000** annually to be expended as follows:
  - o \$3,500 to the faculty mentor's laboratory for supplies and materials for academic year research (for example, lab supplies and instrument usage charges, etc.)
  - o \$1,000 for travel to academic conferences
  - o \$1,000 support for materials and supplies provided to the mentor's lab for summer research (for example, lab supplies and instrument usage charges, etc.)
  - o **\$5,500** stipend to cover living expenses for the student
- Lambert Fellows are expected to present their research each summer at the Undergraduate Research Forum held in August
- Lambert Fellows are expected to present a research poster at the Chicago Undergraduate Research Symposium held in April 2027.

## Eligibility

Applicants must be rising sophomores or juniors majoring in Chemistry. Research must be conducted with a CLP Faculty member. Applicants will be selected based upon their academic achievements and scientific interests.

**Summer Research Component:** Lambert Fellows will engage in full-time research for a 10-week period (between June and August) each summer for two years. Students must agree not to take on any other paid work or research grants and must not be enrolled in courses during the ten-week period. Each scholar will work closely with a graduate student or postdoctoral mentor. Regular group meetings will give students opportunities to share their progress. Enrichment activities include educational sessions with a cohort of CLP students.

**Academic Year Research Component:** The Lambert Fellows Program allows students to participate in research independent of the regular curriculum for three quarter-long projects. The Fellows work closely with a CLP faculty member to develop their proposed research projects and proposed budget allocations. Graduate student and postdoctoral mentors will also work closely with the students. CLP Fellows are highly encouraged to actively participate in CLP-sponsored workshops, symposia and seminars during the year.

**Conference/Travel Component:** Each Fellow is eligible for up to \$1,000 annually for participation in scientific conferences and meetings. These travel funds will be administered by CLP and can cover conference registration and travel costs.

## Application Package Submission Instructions

Submit via email to [clp-info@northwestern.edu](mailto:clp-info@northwestern.edu) .

- Completed Lambert Fellowship Application form
- A one-page, single-sided proposal describing the type of research you would like to conduct. Use a standard 11-point font. Include a title for your project at the top of the page, centered, and your name. One additional page is allowed for including figures and/or references.
- Endorsement letter from a CLP Faculty member. Faculty may submit their recommendation letter via email to [clp-info@northwestern.edu](mailto:clp-info@northwestern.edu) .

RESEARCH INTERESTS (MARK ALL THAT APPLY)				
Chemistry	Chemical Engineering	Materials Science	Biochemistry, Molecular Biology & Cell Biology	Physics
Organic Synthesis	Polymer Chemistry	Metals	Biochemistry	Experimental Condensed Matter
Inorganic Synthesis	Polymer Physics	Biomaterials	Structural Biology	Theoretical Condensed Matter
Spectroscopy	Catalysis	Electronic Materials	Cell and Molecular Biology	Lasers
Polymer Chemistry	Biochemical Engineering	Ceramics	Biophysics	
Biochemistry	Biomaterials	Polymers	Hormone Action and Signal Transduction	
Catalysis	Modeling and Simulation	Computational	Genetics and Developmental Biology	
AGREEMENT				
<p>I attest that I meet the program requirements listed on this application, and I have disclosed all of the information this form is requesting of me. If accepted to this program, <b>I agree to present my research as a poster presentation at the Chicago Area Undergraduate Research Symposium.</b> In submitting this application, I understand that failure to disclose any requested information and/or failure to comply with the above terms and conditions may result in disqualification of and/or termination from the CLP program.</p>
